What should NEVER be placed in a recycling bin?

The following items should never be placed in your recycling bin: garbage, hazardous chemicals, oil, antifreeze, paint, food scraps, dirty diapers, glass, needles or sharps, Styrofoam or peanuts, pizza boxes, chicken boxes, ceramics, Styrofoam egg cartons, cooking/motor oil containers, empty mulch or potting soil bags, aerosol cans, light bulbs or CFL's.

Why aren't these Recycled?

Un-rinsed containers, garbage and hazardous chemicals and glass are dangerous to the people who collect recyclables and work in the Recycling Center. (Clear glass, not colored, is accepted in the green roll off container located at the Street Garage only.)

Unacceptable materials sent to the Recycling Center must be landfilled, which increases program costs.
